~~Replaced the AC orifice tube |~~

~~Volkswagen Passat Forum~~

If your 2000 Sub is like my '99, the dual

air system has the orifice tube in the

high pressure line on the passenger side

right under the air filter box. It is after

the "Y" configuration in the line. There is

a nut over a flair type fitting in the line.

This nut can become frozen and wreck

the threads on the line, so be careful

when removing it.
