Balanced and unbalanced forces -

Answers

Balanced forces are forces that balance. While unbalanced forces are forces that do not balance.

An example could be:

Balanced forces: 1gram of sugar and 1 gram of salt

They both weigh the same

SO ...

Balanced and

Answers

Balanced forces are the forces acting on an object that are equal in size and opposite direction canceling each other out.

Unbalanced forces are forces that are not equal.

What are the examples of balanced forces and unbalanced ...

Unbalanced forces change the motion of an object.

This happens in two ways.

If an object is at rest and an unbalanced force pushes or pulls the object, it will move. Unbalanced forces can also change the speed or direction of an object that is already in motion. A game of tug-of-war is a great way to illustrate an unbalanced force.
