## **M42 Engine Technical Information (E30) - BMW 3 Series**

The new M42 Engine includes a two-section "Differential Air Intake System" (D.I.S.A.) and an adaptive-selective knock control system as well as other design changes. With these changes the revised M42 engine develops 137 hp (103 kW) at 6000 rpm and a maximum torque of 175 Nm (129 lb-ft) at 4600 rpm.

### **M42 Engine**

The BMW M42 is a DOHC four-cylinder petrol engine which was produced from 1989-1996. It is BMW's first mass-production DOHC engine and was produced alongside the BMW M40 SOHC four-cylinder engine as the higher performance engine. The M42 was replaced by the BMW M44, which was introduced in 1996.

## **BMW M42 - Wikipedia**

If you looking for the biggest most powerful street/ track engine we offer in a M42/M44 normally aspirated engine – this is it! This engine when coupled to our light weight 228mm flywheel and clutch assembly works well with the stock drive train. In a E30 it will do a bit over 95mph in the 1/4 mile in about 15 seconds.

## **M42 & M44 Engines - Metric Mechanic**

BMW M42 is a 4-cylinder straight engine which was developed on base of M40B18. The main difference between two motors is the fact that new version has more efficient aluminum 16-valve cylinder head. It uses two camshafts as well as optimized combustion chambers. M42 is still equipped with hydraulic lifters.

## **M42 Engine Kits - Metric Mechanic**

Their formula uses the unmodified crank from the 2.0-liter M44, some custom, short-

skirt pistons they have designed, and the 318is's M42 engine block with some additional boring. The M44 crank (left) is significantly different from the one from our earlier engine. Most noticeable is the crank sensor wheel on the back of the M44 crank.

### **BMW Parts, Modifications, Performance, News, Links, Information**

The M42 was introduced in 1989 to power the glorious E30 318iS, a simply fantastic car in the spirit of the 2002tii. It revved like a banshee and came on cam just when the 318i's 8 valve M40 was running out of puff. This was the engine the E30 had always needed to beat the Golf GTI.
