Essays that analyze music are very much like other kinds of essays, except that they contain specific, technical information about the work or works that you are writing about. Normally, you should do the analysis first before you write the essay. It is a good idea to begin by creating any musical examples that you will include with the essay.

~~Essays that analyze music—Writing in Music~~

The verse-chorus structure (also called ABAB form) is the most widely used form in rock and pop music today. Verse-chorus form follows the structure of the lyrics attached to it. You can, of course, write an instrumental piece that follows the same pattern as a verse-chorus rock or pop song, but the structure itself gets its name from the way the words in a song fit together.

~~Understanding Rock: Essays in Musical Analysis—Google Books~~

the essays in this volume use harmonic, melodic, rhythmic, formal, and textual approaches in order to show how and why rock music works as music. Topics of discussion include the adaptation of blues and other styles to rock; the craft of songwriting; techniques and strategies of improvisation; the reinterpretation of older songs; and the use of the recording studio as a compositional tool.

~~Understanding rock essays in musical analysis~~

Some of these articles are more geared towards recording practices, some are more music theory, some ethnomusicological, and others in the greater scheme of music history. The previous reviewer commented "this ain't Mahler, y'know," but the point is that these essays are designed for people who do want to use the traditional studies used for the classics of music to apply to current rock too.
