Management Reporter User Guide vs. My Training Manuals ...

the training content. A User Manual won't have much pedagogy built into it, but a User Manual, designed and written with regard for ID, should be fine as the classroom training content. IMHO, users prefer to use the actual User Guide for training precisely because the familiar material=less learning overhead, and especially because they'll leave training with more expertise in the content and use of their primary working manual.

Difference Between SOPs v Work Instructions v Procedures

user guide: (from wikipedia), also commonly known as a manual, is a technical communication document intended to give assistance to people using a particular system. It is written by a technical writer. User guides are most commonly associated with electronic goods, computer hardware and software.

User guide - Wikipedia

Note: Sometimes there is a cross-over between User guides and Training Manuals. But there is a difference between them. A Training Manual is usually provided during instructor-led classes, where the instructor can demonstrate, e.g., certain tasks. The student can then use the manual to reinforce what was taught by working through a set of exercises.

terminology - User Manual vs User Guide vs Documentation ...

A user manual generally is used by our customers to find out what features/functions are available and how to use them. generally, user manuals explain each screen and field. A training manual is written a bit different and may have exercises for the user to complete. Training manuals are often given out when a customer attends a training session.

Get Free User Guide Vs Training Manual

A training guide teaches someone the basics of how to interact with the software; the reference (user's) guide provides detailed instruction for someone who already knows the basics of how to use the software.

User Guide Vs Training Manual

A manual is expected to give more in-depth information and instruction than a guide, which is just expected to give the overall information that the person or user may require. Basically, it can be said that a manual is a complete, in-depth set of instructions, whereas a guide is a simple 'how-to' that has enough information to get the user started.
