Hey, thanks Bon! I've got the Haynes manual, which has a decently detailed engine rebuild section. I'll definitely check out the stuff on that site though, thanks for linking me! I'm not totally sure about replacing pistons/rings/valves. The car has around 180k miles on it, engine ran when I got it, but not well.

The second strongest Z31 manual transmission is the FS5W71C. This transmission is used in the 240SX, 180SX, Silvia, etc. A few people who have blown up their FS5R90As have swapped to this transmission and not had problems. A lot of 240SX owners have this transmission mated to their SR20DETs and KA24DETs running 400+ hp with no problems.

### **z31.com | Modifications**

My second dumb questions, somewhere I read there is a difference in the engine rear main seals between auto and manual? Is this true and if so would I need to switch them. I just put a brand new one in when I rebuilt the engine. Is there a connector for the clutch on the auto harness already or will I have to wire one in?
